

HIGH LEVEL CLEANING

Fluid Hygiene provides a nationwide high level cleaning service for all the major sectors that we serve.

NATIONWIDE HIGH LEVEL CLEANING SERVICE

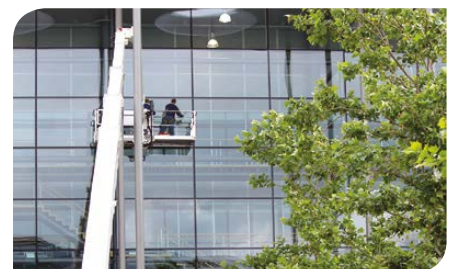

From pressure washing the exteriors of large industrial warehouses or distribution depots through to office window cleaning, roof cleaning or manually cleaning the frontages of major high street retail outlets, we have the experience and skills to provide you with a professional and competitive high level cleaning service. We even offer indoor high level cleaning that is ideal for maintaining the cleanliness of hard-to-reach fixtures and fittings.

“ NOBODY CAN AFFORD TO TAKE CHANCES WITH HEALTH AND SAFETY ON SITE. WITH THEIR RIGOROUS APPROACH TO SAFETY ISSUES, WE TRUST FLUID TO COMPLETE OUR HIGH LEVEL CLEANING JOBS QUICKLY, EFFECTIVELY AND WITH MINIMAL RISK ”

SAFETY FIRST WITH FLUID

We take health and safety very seriously and all our high level cleaning operatives are familiar with the relevant legislation. We avoid ladder work wherever possible and attempt to deliver all our high level cleaning using access towers and mobile booms ('cherry-pickers'). We also insist on the use of safety lines and Ph neutral materials. These factors serve to minimise the risk to both our operatives and your employees in the event of a spillage at high level.

All our high level cleaning personnel are thoroughly trained in the correct and safe use of our equipment, including PASMA training for access towers and working at height, and IPAF training for the use of powered access equipment. We have comprehensive employer's and public liability insurance to cover all our activities and we carry out risk assessments at the point of quotation, so you know that health and safety is our foremost priority from day one.
